RESEARCH INTERESTS

Healthy Aging with End-Stage Renal Disease: My research explores the relationship between neurons and nephrons, with a specific focus on clinically important epidemiologic questions at the intersection of vascular and cognitive aging. Patients with declining kidney function are at higher risk of cognitive decline and incident dementia. I hope to identify interventions to improve kidney disease outcomes and promote healthy aging.

Advancing Epidemiologic Methods: As an educator, I hope to shorten the lag between the development of advanced epidemiologic and biostatistical tools and their application in chronic disease epidemiology.

Patient-Centered eHealth: I am also involved in the development of a number of eHealth tools designed to connect, educate, and empower solid organ transplant donors and recipients.

CURRENT POSITION

Doctoral Student, The University of North Carolina School of Public Health, Department of Epidemiology

2018-Present

EDUCATION

The University of North Carolina, Chapel Hill, NC

PhD, Epidemiology, In Progress

Focus: Cardiovascular Epidemiology
Adviser: Gerardo M. Heiss, MD, PhD

The Johns Hopkins University, Baltimore, MD

MSPH, International Health, May 2016

- Focus: Global Disease Epidemiology and Control (GDEC)
- Thesis: The mLAKE Community Trial: Using mHealth to Empower CHWs to Encourage Combination HIV Prevention
- Adviser: Larry W. Chang, MD, MPH

Washington and Lee University, Lexington, VA

BS, Chemistry-Engineering, May 2014

- *Honors* in Engineering
- Minor in Poverty and Human Capabilities
- Thesis: Plasticity in Dissociated Neuronal Networks under Chronic Stimulation
- Adviser: Jonathan Erickson, PhD

AWARDS

American Society of Nephrology Kidney Week 2018

• Kidney STARS (Students and Residents) Travel Award

American Transplant Congress 2017

- Best of Congress Poster for "Use of Pulsatile Perfusion Modifies the Effect of Delayed Graft Function on Graft Failure"
- Poster of Distiction for "Use of Pulsatile Perfusion Modifies the Effect of Delayed Graft Function on Graft Failure"

Johns Hopkins University Bloomberg School of Public Health

• Center for Global Health Established Field Placement/Pilot Grant, 2015

Washington and Lee University

- Algernon Sydney Sullivan Award, 2014
- Omicron Delta Kappa Leader of the Year, 2014
- Sigma Pi Sigma Physics Honor Society, 2013
- Johnson Opportunity Grant, 2013
- Evans International Grant, 2013
- Avis P. Waring Scholarship, 2013
- Omicron Delta Kappa Leadership Honor Society, 2013
- Beta Beta Biological Honor Society, 2011
- Bonner Scholarship, 2010
- Johnson Scholarship, 2010-2014

EXTRAMURAL FUNDING

NIH, National Heart, Lung, and Blood Institute (NHLBI)

5T32HL007055 Rosamond & Heiss (Co-PIs) 8/18/2018-8/17/2019 12 months (100%)

Cardiovascular Epidemiology Training Grant

Direct Cost: \$471,066

Primary Goals: Pre-doctoral training grant to develop the requiste research skills and expertise

in the area of cardiovascular disease epidemiology and outcomes research.

Role: Predoctoral Trainee

Intramural Funding

Johns Hopkins University

Masters Tuition Scholarship **Thomas** 9/1/2015–5/31/2016 9 months (75%)

Direct Cost: \$40,600

Description: This scholarship is awarded by the Department of International Health to students

in their second year of training.

Role: Masters Student

Washington and Lee University

Johnson Scholarship **Thomas** 8/1/2010–5/31/2014 12 months (100%)

Direct Cost: \$282,000

Description: Winners of this highy competitive, merit-based Scholarship receive full awards to

cover tuition, room and board to attend Washington and Lee University.

Role: Johnson Scholar

TEACHING EXPERIENCE

Johns Hopkins University Bloomberg School of Public Health, Baltimore, MD

Guest Lecturer May 2017

- 340.600.01: Stata Programming
 - Graduate course in intermediate Stata programming
 - Main instructors: Dorry L. Segev, Allan B. Massie
 - Lecture: "From a Dirty Dataset to Table 1"
 - Enrollment: 281

RESEARCH EXPERIENCE

Research Data Analyst | Johns Hopkins University | 2016-2018

• Responsible for data analysis and manuscript preparation for >30 research projects in transplantation epidemiology. Managed data for an ongoing NIH-funded prospective study of living donors. Supported the development of novel eHealth technologies for kidney donors engagement and follow-up. Developed and maintained statistical software in R and Stata. Advisor: Dorry Segev, MD PhD

Research Assistant | Rakai Health Science Program | 2015-2016

• Trained community health workers and study staff involved in the implementation of two NIH-funded studies in Rakai, Uganda. Developed the standard operating procedures for data quality and management and contributed to the development of study questionnaires and protocols. Developed analytic R scripts to regularly generate weekly study implementation reports. Assisted in the development and testing of two mHealth applications. Advisor: Larry Chang, MD MPH.

Data Manager | Johns Hopkins University | 2016

 Performed data management activities to ensure data quality using SAS, EpiInfo, and Stata for the NSEBA Study which aims to improve detection of pediatric HIV in Zambia. Advisor: Catherine Sutcliffe, PhD.

Research Assistant | International Vaccine Access Center | 2014-2015

 Abstracted data from >100 journal articles for a systematic review that aimed to estimate the global burden of Haemophilus influenza type B, Streptococcus Pneumoniae, and Neisseria meningitides.

Student Reseracher | Shepherd Poverty Program | 2013

• Analyzed data from the CDC Health, 2011 report to present longitudinal data analysis on the relationship between socioeconomic status and health status. Funded by the University Research Scholarship. Advisor: Harlan Beckley, PhD

Biomedical Engineering Technician | Engineering World Health | 2013

• Fully repaired 20 medical devices, took full inventories of the Rubavu hospital and its ten surrounding health clinics, and conceptualized a novel medical device to perform lab equipment calibrations in resource-scarce environments.

AMERICORPS SERVICE

Robotics Program Founder | Lexington City Schools | 2011-2014

• Created and ran a program that uses Lego NXT robots to introduce middle school and elementary students to robotics, computer science, and engineering design utilizing a \$2500 grant from NSF.

Shift Leader | Campus Kitchens Project | 2011-2014

 Addressed local hunger as a ServSafe-certified manager by supervising shifts that collected, prepared, and served over 300 meals/week.

Trip Coordinator | Volunteer Venture Program | 2011-2013

• Coordinated three weeklong service trips for incoming students, which involves budget management and logistical planning.

Therapeutic Nursery Intern | Kennedy Krieger Institute | 2011

• Conducted play-therapy sessions with toddlers and families experiencing homelessness. Provided care for the children and assisted with an active study in child psychology.

Patient Eligibility Intern | Rockbridge Area Health Center | 2010-2012

 Helped manage the medical database, helped eligible patients acquire free medication from pharmaceutical companies, and answered patient questions by phone.

SOFTWARE SKILLS

Statistical/Numerical Analysis:

• Stata, R, SAS, MATLAB, Maple

Computer Programming:

• Java, C++, C, Python, SQL

Version Control:

• Git (GitHub/GitLab)

Productivity and Editing Software:

- Atom, Xcode, RStudio
- TeX (LATeX, BibTeX)
- Microsoft Office, LibreOffice, Google Docs, iWork, EndNote
- GIMP, Adobe Photoshop

Operating Systems:

• Apple MacOS, Microsoft Windows, Linux (Fedora, SGE)

ACTIVITES

Journal Peer Review (ad hoc)

- American Journal of Transplantation (AJT)
- Journal of Internet Medical Research (JMIR)

Conference Abstract Review

• Society for Epidemiologic Research, 2018-

Memberships

- Student Member, American Society of Nephrology (ASN), 2018-
- Trainee Member, Society for Epidemiologic Research (SER), 2017-
- Trainee Member, American Society of Transplant Surgeons (ASTS), 2016-
- Student Member, Society for Neuroscience (SFN), 2013
